Compact High Frequency High Voltage Transformer for Space-Saving Solutions

Basic Information

Place of Origin: CHINABrand Name: SZDXZHModel Number: H10KL

 Minimum Order Quantity: 1 pcs

Packaging Details: Woodc

Woodcase/ Paper box

Delivery Time:

15-25 days

• Payment Terms:

T/T

• Supply Ability: 10

10000pcs/month

Product Specification

Product Description:

The High Frequency PCB is designed to handle high voltages and currents, making it ideal for use in UPS systems. It is also highly resistant to heat and moisture, ensuring long-lasting performance even in harsh environments.

The High Frequency High Voltage Transformer is another key component of this UPS, providing reliable power conversion and regulation. It is designed to operate at high frequencies, reducing the size and weight of the transformer while increasing its efficiency. The High Frequency Induction Heater is a unique feature of this UPS, providing rapid and efficient heating for a variety of industrial applications. Whether you need to heat metal, plastic, or other materials, this UPS can provide the power and control you need to get the job done quickly and effectively.

In addition to these cutting-edge features, our High Frequency UPS also includes a range of standard features to ensure reliable and convenient operation. These include automatic voltage regulation, a built-in surge protector, and a user-friendly LCD display for monitoring and control.

Whether you're looking to protect critical equipment in a data center, hospital, or manufacturing facility, our High Frequency UPS is the ideal choice. Contact us today to learn more about this powerful and reliable power protection solution!

Features:

Product Name: High Frequency UPS

Industrial Grade UPS
Industrial UPS Power Supply
Compact UPS Battery Backup

Technical Parameters:

| Product Name | Eaton 93E UPS |
|-------------------|--------------------------------|
| Power Supply Type | High Frequency DC Power Supply |
| PCB Type | High Frequency PCB |

Applications:

The H10KL High Frequency UPS is designed to be used in a variety of applications, including data centers, telecommunications, industrial automation, and medical equipment. It offers high efficiency and scalability to meet the changing needs of businesses. One of the key features of the H10KL High Frequency UPS is its ability to provide continuous power supply even during power outages. This is especially important for businesses that rely on critical equipment and systems that cannot afford downtime. With this UPS power supply, businesses can ensure that their operations continue to run smoothly even in the event of a power outage.

Another important application scenario for the H10KL High Frequency UPS is in industrial settings. It is a great choice for businesses that require a reliable and efficient industrial UPS power supply to keep their machinery and equipment running smoothly. The H10KL High Frequency UPS has been designed to withstand the harsh conditions of industrial environments and provide uninterrupted power supply to critical equipment.

The H10KL High Frequency UPS is comparable to the Eaton 93PR UPS in terms of performance and reliability. This makes it a great alternative for businesses looking for a cost-effective solution without compromising on quality.

At a price of \$626.4, this product is available for purchase with a minimum order quantity of 1 unit. Payment terms are T/T, and supply ability and delivery time are negotiable. The product is packaged in cartons to ensure safe transportation and delivery to the customer.

Support and Services:

The High Frequency UPS product provides reliable power protection for various types of equipment. Our technical support team is available to assist you with any questions or concerns you may have regarding installation, operation, or maintenance of your device. We offer a range of services to ensure that your High Frequency UPS continues to operate at its optimal level. These services include:

On-site installation and commissioning Regular maintenance and inspections

Remote monitoring and diagnostics

Emergency response and repair

Our team of trained technicians are dedicated to providing excellent customer service and support. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging

This High Frequency UPS product is packaged in a sturdy cardboard box with foam padding to protect the contents during shipping. The box measures 20 inches in length, 15 inches in width, and 10 inches in height. The product is secured in the box with plastic wrap and cushioning materials to prevent any damage during transit.

Shipping:

Orders for the High Frequency UPS product will be processed within 24 hours of receipt and shipped via standard ground shipping. Shipping times will vary depending on the destination, but generally take 3-5 business days within the United States. International shipping

is available and shipping times will vary depending on the destination. Customers will receive a tracking number via email once their order has been shipped.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is SZDXZH.

Q: What is the model number of this product?

A: The model number of this product is H10KL.

Q: Where is this product manufactured?

A: This product is manufactured in China.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1.

Q: What is the price of this product?

A: The price of this product is \$626.4.

Q: What are the payment terms for this product?

A: The payment terms for this product are T/T.

Q: What is the supply ability for this product?

A: The supply ability for this product is negotiable.

Q: What is the delivery time for this product?

A: The delivery time for this product is negotiable.

Q: What is the packaging detail for this product?

A: The packaging detail for this product is carton packaging.
