

High Frequency Three Phase Online UPS Industrial Grade 8kVA for Battery Backup

Our Product Introduction

for more products please visit us on power-cabinets.com

Basic Information

- Place of Origin: CHINA
- Brand Name: SZDXZH
- Model Number: H10KL
- Minimum Order Quantity: 1 pcs
- Packaging Details: Woodcase/ Paper box
- Delivery Time: 15-25 days
- Payment Terms: T/T
- Supply Ability: 10000pcs/month

Product Specification

- Highlight: Industrial Grade Three Phase UPS,
8kVA Three Phase Online UPS,
3 Phase Ups Battery Backup

Product Description:

The Eaton 93PR UPS is a three-phase UPS system that delivers up to 98% efficiency, ensuring that your critical equipment is protected at all times. Its scalable design allows for easy expansion of the system as your power needs grow. With a range of input and output options, the Eaton 93PR UPS can be customized to meet your specific power requirements. It also features a graphical LCD display that provides real-time monitoring of system performance and status.

The Eaton 93E UPS is a single-phase UPS system that provides reliable power protection for small to medium-sized businesses. With a compact design, the Eaton 93E UPS can fit easily into any workspace. It features a high-efficiency mode that delivers up to 98% efficiency, helping to reduce energy costs. The Eaton 93E UPS also includes a range of advanced features such as hot-swappable batteries, automatic voltage regulation, and remote management capabilities.

Both the Eaton 93PR UPS and Eaton 93E UPS are designed to deliver reliable power protection in even the most demanding environments. They are built to last, with rugged construction and advanced technology that ensures reliable performance year after year. With a range of features and options, these UPS systems are the ideal solution for organizations that require dependable power protection.

Features:

Product Name: High Frequency UPS
High Frequency DC Power Supply
High Frequency High Voltage Transformer
Industrial Grade UPS

Technical Parameters:

Product Name	Eaton 93PR UPS
Output Power Capacity	8kVA
Topology	High Frequency Inductor
Input Voltage Range	208V-240V
Output Voltage	208V
Battery Type	Compact UPS Battery Backup
Dimensions (H x W x D)	36.2 x 17.4 x 31.3 in
Weight	421 lbs

Applications:

The high frequency PCB and high frequency high voltage transformer of the H10KL provide a reliable and efficient power supply for a range of systems. The UPS system is ideal for use in data centers, telecommunication networks, medical equipment, and industrial automation systems. The H10KL is capable of providing backup power for critical systems in the event of a power outage, ensuring the continuity of operations and minimizing downtime.

In data centers, the H10KL provides a reliable power supply to servers, storage devices, and networking equipment. The high frequency PCB and transformer reduce energy consumption and heat generation, improving the overall efficiency of the data center. The UPS system also protects against power surges and voltage fluctuations, ensuring the safety and integrity of data stored on servers.

In telecommunication networks, the H10KL is used to power base stations, switches, and routers. The high frequency design of the system reduces the size and weight of the UPS, making it an ideal solution for mobile telecommunications applications. The system also provides protection against power outages and voltage fluctuations, ensuring the continuity of telecommunications services.

In medical equipment, the H10KL provides a reliable and consistent power supply to diagnostic and therapeutic devices. The high frequency design of the system reduces noise and interference, ensuring the accuracy and reliability of medical equipment. The UPS system also protects against power surges and voltage fluctuations, ensuring the safety of patients and medical staff.

In industrial automation systems, the H10KL provides a reliable and efficient power supply to a variety of equipment, including motors, pumps, and control systems. The high frequency design of the system reduces energy consumption and heat generation, improving the overall efficiency of the automation system. The UPS system also provides protection against power outages and voltage fluctuations, ensuring the continuity of operations.

Support and Services:

The High Frequency UPS product is designed to provide reliable and efficient power protection for critical applications. Our technical support team is available to assist with any product-related questions or issues, including installation, configuration, and troubleshooting. We offer a range of services to ensure that your High Frequency UPS is always operating at peak performance, including:

Remote monitoring and diagnostics
Preventive maintenance
On-site repair and replacement
Training and certification programs

Our commitment to customer satisfaction means that we are always striving to improve our products and services. We welcome your feedback and suggestions to help us better serve your needs.

Packing and Shipping:

Product Packaging:

Our High Frequency UPS product comes in a sturdy cardboard box to ensure safe transportation. The product is securely packed with protective foam inserts to prevent any damage during shipping.

Shipping:

We offer free shipping for our High Frequency UPS product within the continental United States. For international orders, shipping rates will vary based on location and weight. We use reliable shipping carriers to ensure timely and safe delivery of our products to our customers.

FAQ:

Q: What is the brand name of the High Frequency UPS?

A: The brand name of the High Frequency UPS is SZDXZH.

Q: What is the model number of the High Frequency UPS?

A: The model number of the High Frequency UPS is H10KL.

Q: What is the minimum order quantity for the High Frequency UPS?

A: The minimum order quantity for the High Frequency UPS is 1.

Q: What is the price of the High Frequency UPS?

A: The price of the High Frequency UPS is \$626.4.

Q: What are the payment terms for the High Frequency UPS?

A: The payment terms for the High Frequency UPS are T/T.

Q: What is the supply ability for the High Frequency UPS?

A: The supply ability for the High Frequency UPS is negotiable.

Q: What is the delivery time for the High Frequency UPS?

A: The delivery time for the High Frequency UPS is negotiable.

Q: What is the packaging details for the High Frequency UPS?

A: The packaging details for the High Frequency UPS is carton packaging.

01
Stable and reliable
ONLINE DOUBLE CONVERSION
TECHNOLOGY COMPLETELY
ELIMINATES THE IMPACT OF POWER
FAILURES AND EFFECTIVELY
PROTECTS THE LOAD FROM
UNINTERRUPTED OPERATION

02
Ultra-wide voltage
ULTRA-WIDE VOLTAGE INPUT
RANGE, EFFECTIVELY REDUCING
THE NUMBER OF BATTERY
CHANGES AND EXTENDING

03
Green and Energy Saving
REDUCE ENERGY LOSS, EFFICIENCY
UP TO 90%, ULTRA-SMALL SIZE,
SIGNIFICANTLY SAVES SPACE
COMPARED TO TRADITIONAL UPS
SYSTEMS

04
Convenient and easy to use
EASY TO OPERATE, LCD DISPLAY,
FRIENDLY HUMAN-MACHINE
INTERFACE, STANDARD MACHINE
