

## High Frequency UPS Energy saving with ECO mode and generator compatibility

### Basic Information

- Place of Origin: CHINA
- Brand Name: SZDXZH
- Model Number: H10KL
- Minimum Order Quantity: 1 pcs
- Packaging Details: Woodcase/ Paper box
- Delivery Time: 15-25 days
- Payment Terms: T/T
- Supply Ability: 10000pcs/month

### Product Specification

- Net Weight (Standard Machine): 9.8kg
- Power Range: 1K VA
- Highlight: 1k va high frequency ups ,  
1k va ups uninterruptible power supply

## Product Description

### Product Description:

The True Online UPS technology guarantees that the power supply is always stable and free from any interruptions. This is because the system continuously converts AC power to DC power and then back to AC power, ensuring that the power supply is always clean and consistent. This technology is particularly useful for industries that require a consistent and reliable power supply, such as medical care, energy, and electricity industries.

The Digital Signal Processor UPS technology ensures that the power supply is always smooth and stable. This technology uses advanced digital signal processing algorithms to regulate the output voltage and frequency, ensuring that the power supply is always within the required range. This technology is particularly useful for industries that require a stable and consistent power supply, such as industrial and commercial taxation, government, and finance industries.

The High Frequency UPS is an Online UPS, which means that the system is always connected to the power supply, ensuring that the battery is always charged and ready to go in case of a power outage. This is particularly useful for industries that require a reliable backup power supply, such as transportation, meteorology, and radio and television industries.

In summary, the High Frequency UPS is a True Online UPS with a Digital Signal Processor UPS technology that ensures a stable and reliable power supply for various industries. The Online UPS feature ensures that the system is always connected to the power supply, while the Digital Signal Processor UPS technology ensures that the power supply is always smooth and stable. This makes the High Frequency UPS an ideal choice for industries that require a consistent and reliable power supply.

### Features:

Product Name: High Frequency UPS

True Online UPS

Switching Frequency UPS

Output power factor can reach: 0.8

Application scope:

Widely used in various industries such as government, finance, communications, education, transportation, meteorology, radio and television, industrial and commercial taxation, medical care, energy and electricity, etc.

### Technical Parameters:

Product Attribute	Description
Product Name	HF UPS / Digital Signal Processor UPS
Size	282*145*220
Application Scope	Widely used in various industries such as government, finance, communications, education, transportation, meteorology, radio and television, industrial and commercial taxation, medical care, energy and electricity, etc.
Input Voltage Range	110 V - 300 V

### Applications:

The SZDXZH H10KL HF UPS is designed with a wide mains input range of 110 V – 300 V, making it suitable for use in various industries such as government, finance, communications, education, transportation, meteorology, radio and television, industrial and commercial taxation, medical care, energy and electricity, and more. Its net weight is 9.8kg for the standard machine, making it a lightweight and easy-to-handle option for businesses of any size.

The SZDXZH H10KL HF UPS is perfect for any occasion or scenario where a reliable and stable power source is essential. It can be used in emergency situations such as power outages, as well as for regular everyday use. Its high performance ensures that your equipment and systems remain safe and secure, even during power surges or fluctuations.

Investing in the SZDXZH H10KL HF UPS is a wise choice for businesses and organizations that value uninterrupted power supply. Its advanced features and affordable price point make it a popular choice for industries across the board. Order yours today and experience the peace of mind that comes with a reliable power source.

### Support and Services:

The High Frequency UPS product technical support and services include:

- Installation and start-up assistance
- Remote monitoring and diagnostics
- Preventive maintenance
- On-site and off-site repair services
- Replacement parts and accessories

- Technical training and support
- 24/7 customer service hotline

## Packing and Shipping:

Product Packaging:

High Frequency UPS unit

Power cord

User manual

Shipping:

Shipped via standard ground shipping

Expected delivery time is 3-5 business days

Shipping cost will vary depending on location

Tracking information will be provided once the item has shipped

## FAQ:

**Q:** What is the brand name of this high frequency UPS?

**A:** The brand name of this high frequency UPS is SZDXZH.

**Q:** What is the model number of this high frequency UPS?

**A:** The model number of this high frequency UPS is H10KL.

**Q:** Where is this high frequency UPS manufactured?

**A:** This high frequency UPS is manufactured in China.

**Q:** What is the minimum order quantity for this high frequency UPS?

**A:** The minimum order quantity for this high frequency UPS is 1.

**Q:** What is the price of this high frequency UPS?

**A:** The price of this high frequency UPS is \$626.4.

**Q:** What are the payment terms for this high frequency UPS?

**A:** The payment terms for this high frequency UPS are T/T.

**Q:** What is the supply ability of this high frequency UPS?

**A:** The supply ability of this high frequency UPS is negotiable.

**Q:** What is the delivery time for this high frequency UPS?

**A:** The delivery time for this high frequency UPS is negotiable.

**Q:** How is this high frequency UPS packaged?

**A:** This high frequency UPS is packaged in cartons.

**01**

**Stable and reliable**

ONLINE DOUBLE CONVERSION  
TECHNOLOGY COMPLETELY  
ELIMINATES THE IMPACT OF POWER  
FAILURES AND EFFECTIVELY  
PROTECTS THE LOAD FROM  
UNINTERRUPTED OPERATION

**02**

**Ultra-wide voltage**

ULTRA-WIDE VOLTAGE INPUT  
RANGE, EFFECTIVELY REDUCING  
THE NUMBER OF BATTERY  
CHANGES AND EXTENDING

**03**

**Green and Energy Saving**

REDUCE ENERGY LOSS, EFFICIENCY  
UP TO 90%, ULTRA- SMALL SIZE,  
SIGNIFICANTLY SAVES SPACE

**04**

**Convenient and easy to use**

EASY TO OPERATE, LCD DISPLAY,  
FRIENDLY HUMAN-MACHINE  
INTERFACE, STANDARD MACHINE
