

Customized Communication Switching Telecom Rectifier Power Supply 12V 40A

Our Product Introduction

for more products please visit us on power-cabinets.com

Basic Information

- Place of Origin: shenzhen
- Brand Name: daxin
- Certification: CE,UL
- Model Number: DX-C-1k20AH
- Minimum Order Quantity: 10
- Packaging Details: Wooden Pallet+Cardboard Box
- Payment Terms: L/C, T/T
- Supply Ability: 10000pcs/month

Product Specification

- Product Name: Power Conversion Module For Monitoring Cameras/communication/government Units/factories
- Shipping: Free Within The United States, International Shipping Rates Apply, Ships Within 1-2 Business Days, Tracking Information Will Be Provided Via Email
- Temperature Range: -40°C To 55°C
- Cabinet Layout: One Compartment
- Installation Method: Floor Installed
- Input Voltage: 100-240V
- Highlight: **Customized Telecom Rectifier Power Supply , 12V 40A Communication Rectifier Power Supply**

Product Description:

Each unit comes in a sturdy and durable cabinet layout with one compartment, ensuring that the power supply is well-protected from external factors that may cause damage. The outdoor powder coating on the surface of the cabinet adds an extra layer of protection, making it ideal for outdoor use.

Our Communicating Electrical Power System comes with an MTP connector RL of $\geq 60\text{dB}$, ensuring that your equipment receives a stable and uninterrupted power supply. This feature makes it ideal for use in areas where power fluctuations are common.

Each package of our Communication Power Supply product includes one unit of the power supply, one power cord, and one user manual. The user manual provides detailed instructions on how to install and use the product, ensuring that even those with little technical background can install and use the power supply easily.

Overall, our Communications Electrical Power Supply is a reliable and efficient power conversion module that is designed for use in a variety of applications. Its sturdy and durable construction, along with its outdoor powder coating, make it perfect for use in harsh outdoor environments. Its MTP connector RL of $\geq 60\text{dB}$ ensures a stable and uninterrupted power supply for your equipment, making it an ideal choice for communication equipment, government units, factories, and monitoring cameras.

Features:

Product Name: Communication Power Supply

Surface: Outdoor Powder Coating

Embedded Power Supply Brand: Daxin

Mount Way: 19-inch Mount

Price: 2850

Industrial PC Power Supply: Yes

Technical Parameters:

Product Name	Communication Power Supply
ATM Power Supply	Yes
Capacity	48V/10A~150A
Mount Way	19-inch Mount
Manufacturer	Shenzhen
Packaging Details	Wooden Pallet+Cardboard Box
Payment Terms	L/C, T/T
Applications	Telecommunication Adapter, Telecom Power Module, Broadband Power Distribution Unit
Certifications	CE, UL
Input Voltage	100-240V
Humidity Range	10% To 95%

Applications:

The DX-C-1k20AH is manufactured in Shenzhen and has a minimum order quantity of 10 units. Priced at \$2850, this communication power supply offers excellent value for money. Payment can be made via L/C or T/T, and our supply ability of 5000 units means you can easily stock up for your upcoming projects.

The packaging for this product consists of a wooden pallet and cardboard box, ensuring your order arrives safely and undamaged. The mount way for the DX-C-1k20AH is 19-inch Mount, making it easy to install in your communication setup.

We offer free shipping within the United States, with international shipping rates applying for orders outside the US. Your order will be shipped within 1-2 business days, and tracking information will be provided via email.

The DX-C-1k20AH is designed to be floor installed, and our technical support and services ensure you can get the most out of your communication power supply. Our services include troubleshooting, repair and replacement, software updates and upgrades, technical consultation, maintenance, and servicing.

Whether you're setting up a new communication system or upgrading your current one, the daxin DX-C-1k20AH Communicating Electrical Power Source is an excellent choice. Its reliability and efficiency make it a must-have for any communication setup.

Support and Services:

The Communication Power Supply product technical support and services include:

24/7 technical support through phone and email

Product installation and commissioning services

On-site troubleshooting and repair services

Preventive maintenance services to ensure optimal product performance
Product training and education services for customers and partners
Warranty and post-warranty support

Packing and Shipping:

Product Packaging:

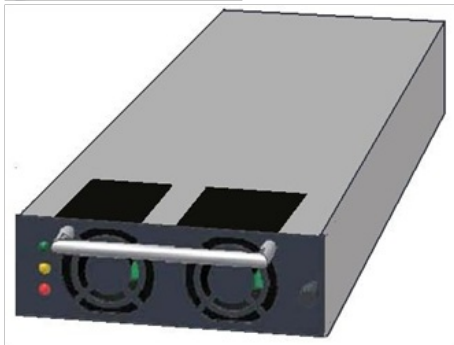

1 Communication Power Supply unit
1 Power cord
User manual

Shipping:

Shipping method: Standard
Estimated delivery time: 5-7 business days
Shipping cost: \$9.99

FAQ:

- A: The brand name of this communication power supply is **daxin** .
2. Q: What is the model number of this communication power supply?
A: The model number of this communication power supply is **DX-C-1k20AH** .
3. Q: What certifications does this communication power supply have?
A: This communication power supply has **CE** and **UL** certifications.
4. Q: Where is this communication power supply made?
A: This communication power supply is made in **shenzhen** .
5. Q: What is the minimum order quantity for this communication power supply?
A: The minimum order quantity for this communication power supply is **10** .

Main equipment for cabinet processing (Three main equipment)

Laser

- 1500W: 1tower
- 3000W: 2tower

TRUMATIC500- Fully Automatic

- Fast data punching: 4 units with automatic loading and unloading

TRUMATIC500- Fully Automatic
Japan AMADA - Fully Automatic

- Japan AMADA: 7 units with automatic loading and unloading
- Model: EM-2510NT/AC-2510NT

Key process - general punching, bending, and riveting workshop

- Japan AMADA: 25 units
- Model: RG-35S

- TOX riveting machine: 24 units

- Puchong: 5 units (160T+250T+300T)

Key Process - Copper and Aluminum Product Workshop (Integrated Cutting and Punching Machine)

- Copper bar integrated machine: 2 units
- Model: LID-30
- Features: high-precision automatic cutting and punching

Key Process - Welding Workshop

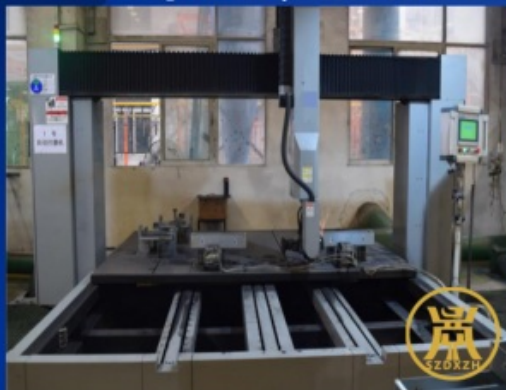

Fully automatic, 360 degree rotating welding line features: Welding accuracy: Welding displacement less than 1.5 mm, welding flip angle less than 0.1 degrees. Welding software: Our self-developed welding control software v1.3 version can store up to 128 welding programs. Scan the product code to initiate the welding program, automatically switch between dual platforms, seamlessly connect, and achieve uninterrupted welding. Welding dimensions: Product height 2.8 meters, width 1.5 meters. Welding capacity: 11 fully automatic welding robots and 47 welders. Monthly output of 20000 to 25000 cabinets.

Key Process - Polishing Workshop

- Automatic polishing machine: 2 units, equipment can be increased according to product demand.
- Manual polishing stations: 15, with manpower allocated according to the product structure.

Key process - Metal parts electroplating workshop (automated assembly line)

Key process - Spray painting workshop (3 main lines+1 auxiliary line/small batch)

Reciprocating machine (automatic powder spraying)

Automatic Line 1

Automatic Line 2

Automatic Line 3

Characteristics of Spray Line:

- ◆ Characteristics of Spray Line: The system monitors the furnace temperature in real-time, and when the oven temperature does not meet the standard The system monitors the furnace temperature in real-time, and when the oven temperature does not meet the standard
- ◆ Automatic spraying: Reciprocating machine automatic spraying ensures uniform thickness and aesthetic appearance of the coating.
- ◆ Equipment resources: 3 main lines+1 auxiliary line, which can simultaneously meet the needs of different colors;
- ◆ Daily production capacity: 15,000 to 20,000 square meters per day

Key Process - Product Assembly Workshop

Large cabinet assembly line

Small cabinet with assembly line

IPX6 Spray Water Testing System

Small chassis wiring assembly line

Outdoor cabinet product assembly line

High voltage product assembly line

Key process - outdoor cabinet waterproof testing assembly line

- Pipeline standard: IPX1-IPX5 waterproof rating, which can be adjusted and matched according to product requirements.
