

OEM ODM Industrial Telecommunications Power Supplies 12V Rack Mounted

Our Product Introduction

for more products please visit us on power-cabinets.com

Basic Information

- Place of Origin: shenzhen
- Brand Name: daxin
- Certification: CE,UL
- Model Number: DX-C-1k20AH
- Minimum Order Quantity: 10
- Packaging Details: Wooden pallet+cardboard box
- Payment Terms: L/C, T/T
- Supply Ability: 10000pcs/month

Product Specification

- Cabinet Layout: One Compartment
- Embedded Power Supply Brand: Daxin
- Temperature Range: -40°C To 55°C
- Mtp Connector RI: $\geq 60\text{dB}$
- Capacity: 48V/10A~150A
- Humidity Range: 10% To 95%
- Manufacturer: Shenzhen
- Highlight: **OEM Telecommunications Power Supplies,
Rack Mounted Telecom Power Supplies**

Product Description

Industrial PC Power Supply High Voltage Dc Power Supply for Outdoor Powder Coating

Product Description:

One key feature of this Communication Power Supply product is its outdoor powder coating surface that makes it suitable for use in outdoor environments. This feature enhances its durability and ensures that it can withstand harsh weather conditions, making it ideal for use in remote areas where telecommunication equipment requires reliable power supply.

The Communication Power Supply has a high voltage power supply that provides a stable and consistent power supply for various telecommunication equipment. With a supply ability of 5000 units, this power supply module is ideal for use in various telecommunication applications that require high-quality power supply units. Additionally, it has CE and UL certifications, making it safe and reliable for use in various telecom applications.

The Power conversion module for monitoring cameras/communication/government units/factories is an essential product for telecommunication service providers, government agencies, and various industries that require reliable and efficient power supply for their equipment. Whether you are operating a communication network, monitoring cameras, or operating government units, this Communication Power Supply product is ideal for providing high-quality power supply.

Features:

Product Name: Communication Power Supply

Payment Terms: L/C and T/T

Internal Dimension: W×D×H 482.3×380×44mm

Support and Services:

Troubleshooting and diagnosis of product issues

Repair and replacement of faulty components

Software updates and upgrades

Technical consultation for product integration and installation

Maintenance and servicing of the product

Shipping:

Free shipping within the United States

International shipping rates apply

Ships within 1-2 business days

Tracking information will be provided via email

Mtp Connector RI: ≥60dB

Product Attributes: High Voltage Power Supply, Emergency Light Power Supply, AC Switching Power Supply

Technical Parameters:

| | |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Manufacturer: | Shenzhen |
| Industrial PC Power Supply: | Yes |
| Input Voltage: | 100-240V |
| Temperature Range: | -40°C To 55°C |
| Packaging Details: | Wooden pallet+cardboard box |
| Embedded Power Supply Brand: | Daxin |
| Cabinet Layout: | One Compartment |
| Humidity Range: | 10% To 95% |
| Shipping: | Free within the United States, International shipping rates apply, Ships within 1-2 business days, Tracking information will be provided via email |
| Installation Method: | Floor Installed |
| Output: | AC Switching Power Supply, AC DC Power Supply, Instrument Power Supply |

Applications:

Whether you need an AC switching power supply for your industrial PC or for your communication equipment, this power supply can meet your needs. It has a temperature range of -40°C to 55°C, so it can operate in a wide range of environments.

The daxin DX-C-1k20AH Communication Power Supply is perfect for use in factories, warehouses, and other industrial settings where reliable power is essential. It can be used to power a variety of communication equipment, including routers, switches, and other networking devices.

With a minimum order quantity of 10 and a price of \$2850, this power supply is affordable and accessible for businesses of all sizes.

Payment terms include L/C and T/T, and the supply ability is 5000 units.

The packaging details include a wooden pallet and cardboard box, ensuring that your power supply arrives safely and securely. Shipping is free within the United States, and international shipping rates apply. The product ships within 1-2 business days, and tracking information will be provided via email.

When it comes to embedded power supply brands, dixin is a trusted name in the industry. The dixin DX-C-1k20AH Communication Power Supply is just one example of the company's commitment to quality and reliability.

Overall, the dixin DX-C-1k20AH Communication Power Supply is an excellent choice for anyone in need of a reliable and versatile power supply for their communication equipment. With its CE and UL certifications, you can trust that this product is safe and reliable for use in a variety of industrial applications.

Support and Services:

Packing and Shipping:

Product Packaging:

1 Communication Power Supply unit

1 Power cord

User manual

Shipping:

Shipping method: Standard ground shipping

Shipping carrier: UPS

Estimated delivery time: 3-5 business days

Shipping cost: Free

FAQ:

Q1: What is the brand name of the Communication Power Supply?

A1: The brand name of the Communication Power Supply is dixin.

Q2: What is the model number of the Communication Power Supply?

A2: The model number of the Communication Power Supply is DX-C-1k20AH.

Q3: What certifications does the Communication Power Supply have?

A3: The Communication Power Supply has CE and UL certifications.

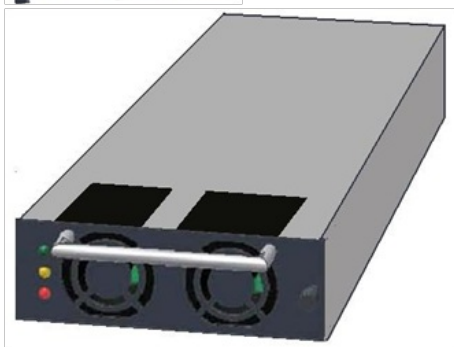

Q4: Where is the Communication Power Supply made?

A4: The Communication Power Supply is made in Shenzhen.

Q5: What is the minimum order quantity for the Communication Power Supply and what is the price?

A5: The minimum order quantity for the Communication Power Supply is 10 and the price is \$2850.

Payment terms are L/C and T/T. The supply ability is 5000 and the packaging details include a wooden pallet and a cardboard box.

Main equipment for cabinet processing (Three main equipment)

Laser

- 1500W: 1tower
- 3000W: 2tower

TRUMATIC500- Fully Automatic

- Fast data punching: 4 units with automatic loading and unloading

TRUMATIC500- Fully Automatic
Japan AMADA - Fully Automatic

- Japan AMADA: 7 units with automatic loading and unloading
- Model: EM-2510NT/AC-2510NT

Key process - general punching, bending, and riveting workshop

- Japan AMADA: 25 units
- Model: RG-35S

- TOX riveting machine: 24 units

- Puchong: 5 units (160T+250T+300T)

Key Process - Copper and Aluminum Product Workshop (Integrated Cutting and Punching Machine)

- Copper bar integrated machine: 2 units
- Model: LID-30
- Features: high-precision automatic cutting and punching

Key Process - Welding Workshop

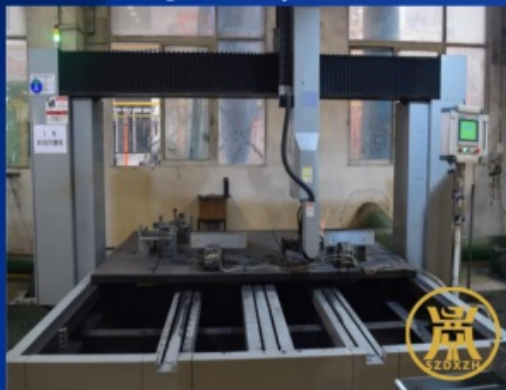

Fully automatic, 360 degree rotating welding line features: Welding accuracy: Welding displacement less than 1.5 mm, welding flip angle less than 0.1 degrees. Welding software: Our self-developed welding control software v1.3 version can store up to 128 welding programs. Scan the product code to initiate the welding program, automatically switch between dual platforms, seamlessly connect, and achieve uninterrupted welding. Welding dimensions: Product height 2.8 meters, width 1.5 meters. Welding capacity: 11 fully automatic welding robots and 47 welders. Monthly output of 20000 to 25000 cabinets.

Key Process - Polishing Workshop

- Automatic polishing machine: 2 units, equipment can be increased according to product demand.
- Manual polishing stations: 15, with manpower allocated according to the product structure.

Key process - Metal parts electroplating workshop (automated assembly line)

Key process - Spray painting workshop (3 main lines+1 auxiliary line/small batch)

Reciprocating machine (auto
matic powder spraying)

Automatic Line 1

Characteristics of Spray Line:

- ◆ Characteristics of Spray Line: The system monitors the furnace temperature in real-time, and when the oven temperature does not meet the standard The system monitors the furnace temperature in real-time, and when the oven temperature does not meet the standard
- ◆ Automatic spraying: Reciprocating machine automatic spraying ensures uniform thickness and aesthetic appearance of the coating.
- ◆ Equipment resources: 3 main lines+1 auxiliary line, which can simultaneously meet the needs of different colors;
- ◆ Daily production capacity: 15,000 to 20,000 square meters per day

Automatic Line 2

Automatic Line 3

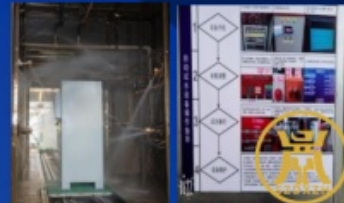

Key Process - Product Assembly Workshop

Large cabinet assembly line

Small cabinet with assembly line

IPX6 Spray Water Testing System

Small chassis wiring assembly line

Outdoor cabinet product assembly line

High voltage product assembly line

Key process - outdoor cabinet waterproof testing assembly line

- Pipeline standard: IPX1-IPX5 waterproof rating, which can be adjusted and matched according to product requirements.
