Home Battery Energy Storage System Manufacturers Overcharge/overdischarge Protection

Basic Information

SHENZHEN • Place of Origin:

• Brand Name: daxin

• Model Number: DX -CESS-10K25KWH-100K215KWH

1 pcs

• Minimum Order Quantity:

· Packaging Details:

Woodcase/ Paper box

• Delivery Time: 15-25 days • Payment Terms: T/T

10000pcs/month • Supply Ability:

Product Specification

• Protection Level: IP55

• Efficiency: Up To 95% • Other Accessory: Sensor

• Safety Features: Overcharge/overdischarge Protection, Short

Circuit Protection, Thermal Protection

• Warranty: 10 Years

· Certifications: CE, UL, TUV, ISO • Illumination: DC48V LED Lamp

• Cabinet Cooling: Heat Exchanger And Fans, MTBF≥50000h.

• Highlight: Home Battery Energy Storage System,

Battery Energy Storage System Manufacturers

Product Description

Product Description:

Featuring a single battery shelf, this energy storage system is capable of storing up to 200kWh/m² of energy, making it one of the most efficient systems on the market. With its impressive energy density, this system can help businesses save money on their energy bills and reduce their carbon footprint.

One of the standout features of this industrial and commercial energy storage system is its operating temperature range. With a range of -20°C to 60°C, this system can operate in a variety of different environments, making it the perfect choice for businesses with diverse

In addition to its impressive energy storage capabilities, this system also comes with a range of other accessories, including a sensor. This sensor can be used to monitor the system's energy usage and performance, allowing businesses to optimize their energy usage and get the most out of their investment.

When it comes to warranties, this energy storage system is hard to beat. With a 10-year warranty, businesses can rest assured that their investment is protected and that they will be able to rely on the system for years to come.

So if you're looking for a commercial energy storage system that is efficient, reliable, and packed with features, look no further than the Industrial and Commercial Energy Storage System. With its cutting-edge technology and advanced features, this system is the perfect choice for businesses looking to improve their energy efficiency and save money on their energy bills.

Applications:

One of the most common applications for this product is commercial battery storage systems. It is designed to provide businesses with a reliable and cost-effective way to store energy for later use. This system is perfect for businesses that want to save money on their energy bills and reduce their carbon footprint. The DX-CESS-10K25KWH-100K215KWH is also ideal for industrial energy storage needs, providing a safe and secure way to store large amounts of energy for use in manufacturing processes and other industrial applications. The DX-CESS-10K25KWH-100K215KWH Energy Storage System is also perfect for use in remote areas where access to the power grid is limited or non-existent. This system can be used to power remote research stations, mining operations, and other off-grid locations. The IP55 protection level ensures that the system is protected from the elements and can withstand harsh weather conditions.

The energy density of this product is up to 200kWh/m², making it one of the most efficient energy storage systems on the market. The cabinet cooling system, which includes a heat exchanger and fans, ensures that the system operates at the optimal temperature, with a MTBF>50000h

The DX-CESS-10K25KWH-100K215KWH Energy Storage System also comes with a sensor accessory, which allows you to monitor the system's performance remotely. This feature gives you peace of mind, knowing that your energy storage system is working efficiently and

In conclusion, the daxin DX-CESS-10K25KWH-100K215KWH Industrial and Commercial Energy Storage System is the perfect solution for businesses and industries that want to save money on their energy bills and reduce their carbon footprint. With its efficient energy storage capabilities, reliable performance, and remote monitoring features, this system is a must-have for anyone who wants to take control of their energy usage.

Customization:

daxin offers product customization services for our Industrial Energy Storage Systems, including our Energy Battery Storage and Energy Storage Container products. Our Model Number DX-CESS-10K25KWH-100K215KWH is designed and manufactured in SHENZHEN, with an energy density of up to 200kWh/m² and an efficiency of up to 95%. Our systems are built to last and are protected with a highlevel IP55 protection rating and an Anti-theft Three Point Lock. Trust that your energy storage needs are met with our Industrial Energy Storage Systems, manufactured in Shenzhen.

Support and Services:

Our Industrial and Commercial Energy Storage System comes with comprehensive technical support and services to ensure that your system operates at its best performance. Our team of experts is available to assist you with:

Installation and commissioning

Ongoing maintenance and repair

System optimization and upgrades Remote monitoring and diagnostics

24/7 emergency support

We also offer training programs for your personnel to ensure that they have the necessary skills to operate and maintain the system. Our goal is to provide you with a reliable and efficient energy storage solution that meets your specific needs.

Packing and Shipping:

Product Packaging:

- 1 Industrial and Commercial Energy Storage System unit
- 1 AC power cord
- 1 User manual

Shipping:

Ships within 2-3 business days

Free shipping within the continental United States

International shipping available for an additional fee

Product will be securely packaged and insured during shipping

FAQ:

- Q: What is the brand name of the Industrial And Commercial Energy Storage System?
- A: The brand name of this product is daxin.
- Q: What is the model number of the Industrial And Commercial Energy Storage System?
- A: The model number of this product is DX-CESS-10K25KWH-100K215KWH
- Q: Where is the Industrial And Commercial Energy Storage System manufactured?
- A: This product is manufactured in SHENZHEN.
- Q: What is the capacity of the Industrial And Commercial Energy Storage System?
- A: The capacity of this product ranges from 10K25KWH to 100K215KWH.
- Q: What type of applications is the Industrial And Commercial Energy Storage System suitable for?
- A: This product is suitable for industrial and commercial energy storage applications.
