

IP55 Solar Energy Storage System for Outdoor Microgrids High Protection and Battery Included

Our Product Introduction

Basic Information

- Place of Origin: SHENZHEN
- Brand Name: daxin
- Certification: CE
- Model Number: DX
- Minimum Order Quantity: 1 pcs
- Packaging Details: Woodcase/ Paper box
- Delivery Time: 15-25 days
- Payment Terms: t/t
- Supply Ability: 10000pcs/month

Product Specification

- Name: IP55 Solar Outdoor Microgrid Energy Storage System
- Protection Level: IP55
- Product Category: Industrial And Commercial Energy Storage System
- Manufacturer: Shenzhen
- Solar Panel: Yes
- Battery: Yes
- Telecom Rectifier System: Yes
- Highlight: **Outdoor Microgrids Solar Energy Storage System**
, Battery Included Solar Energy Storage System
, High Protection Solar Energy Storage System

Product Description

IP55 solar outdoor microgrid energy storage system

An integrated power supply cabinet with a rectifier system typically refers to a compact and efficient unit designed to convert alternating current (AC) to direct current (DC) while also providing various functionalities like protection, monitoring, and distribution of power. Here are some key components and features you might expect:

IP55 solar outdoor microgrid energy storage system

Components

Rectifier: Converts AC to DC, often featuring multiple output voltages.

Power Distribution Unit (PDU): Distributes DC power to various loads or circuits.

Monitoring System: Includes meters and sensors to track voltage, current, and temperature.

Protection Mechanisms: Fuses, circuit breakers, and surge protectors to safeguard against overloads and faults.

Cooling System: Fans or ventilation to maintain optimal operating temperatures.

Enclosure: A robust cabinet that houses all components and provides physical protection.

IP55 solar outdoor microgrid energy storage system

Features

Modular Design: Allows for easy upgrades and maintenance.

Scalability: Can be expanded to meet increasing power demands.

Remote Monitoring: Capability to monitor system performance from a distance, often through web interfaces or mobile apps.

Compliance: Meets industry standards for safety and performance.

IP55 solar outdoor microgrid energy storage system

Applications

Telecommunications

Data centers

Industrial automation

Renewable energy systems

IP55 solar outdoor microgrid energy storage system

Product Name: Industrial And Commercial Energy Storage System

Product Category: Industrial And Commercial Energy Storage System

Brand Name: daxin

Price: Based on design

Applications:

Telecommunications/Transportation/Renewable Energy/Outdoor Events

Features:

Industrial and Commercial Energy Storage System

All-in-one Commercial Energy Storage Cabinet

Provides reliable and efficient power for various applications

Designed for easy installation and maintenance

Long-lasting and high-performance lithium-ion batteries

Intelligent battery management system for optimal performance and safety

IP55 solar outdoor microgrid energy storage system

Telecom Power Solutions

Technical Parameters:

Brand Name: Daxin

Minimum Order Quantity: 1pcs

Certification: CE

Product Name: Outdoor Telecom Solar Photovoltaic Energy Storage System

Layout: Customized

Material: Metal

Cooling Capacity: Air conditioner

Manufacturer: Shenzhen

Applications: Telecommunications, Transportation, Renewable Energy, Outdoor Events
